

# Valentine Sliding Pop-Up Card

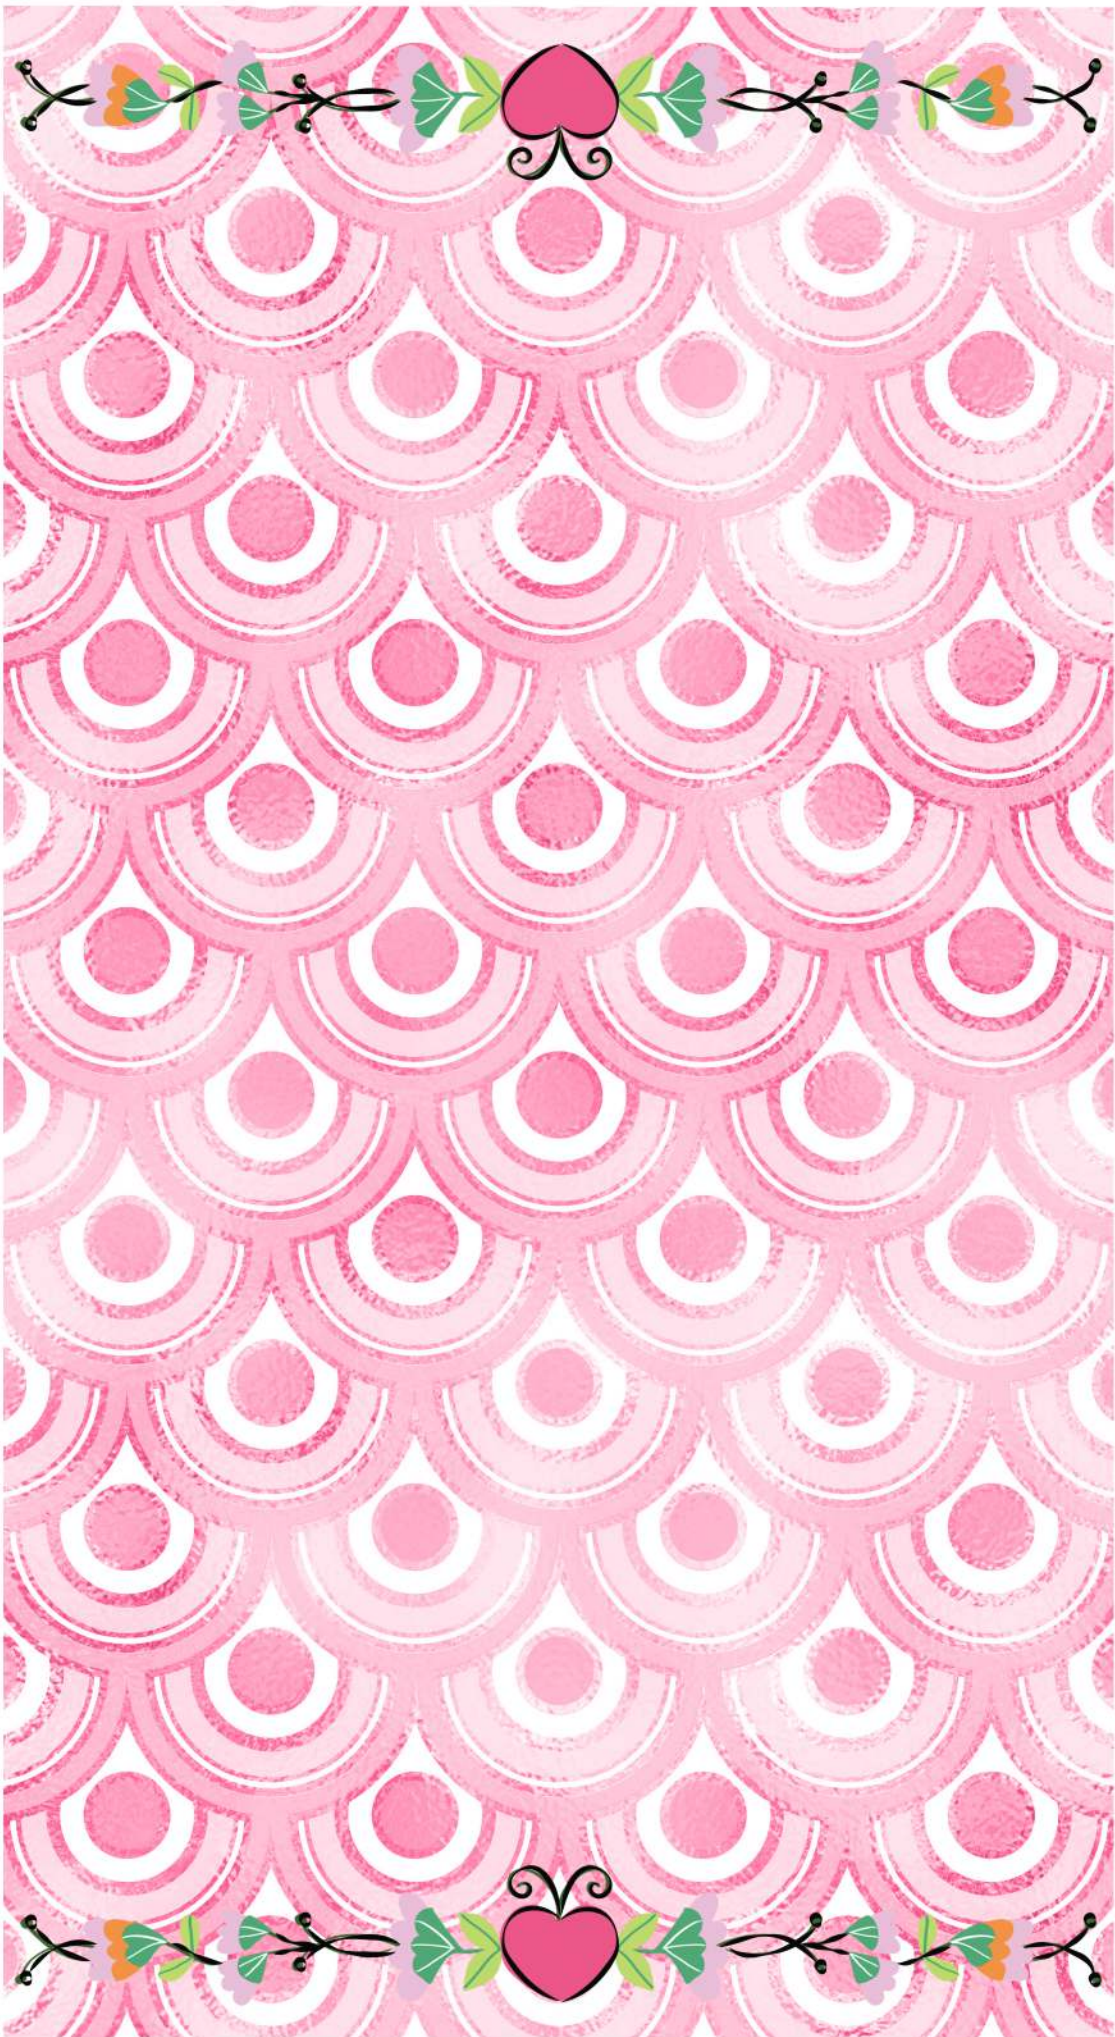

## Materials:

- 3 template sheets printed on cardstock paper  
(Instruction Sheet - optional to print.)
- Small, sharp scissors
- Ruler
- Glue or glue stick
- Adult hands helping little hands

## Directions:

1. Cut all the pieces from the pop-up card templates.
2. Fold the base card in half, printed side facing out.
3. Score and fold back the solid lines on the shorter card template. Cut out the slot along the dotted lines.
4. Fold the bottom tab of the cat forward.
5. Open up the short card with the printed side up. Align the slot along the middle fold line on the back of the main base card.
6. Apply glue to the outside of the front flap on the short card template.
7. While keeping the short card aligned to the very center, fold the tab under and glue it in place.
8. Thread the cat through the slot. Glue its bottom tab down, lining the back of this tab along the center fold line of the base card.
9. Next, fold under and glue the other flap in place, then fold the entire card in half.
10. Glue the inside greeting in place. Finally, glue the outside "To/From" label onto the front of the card.

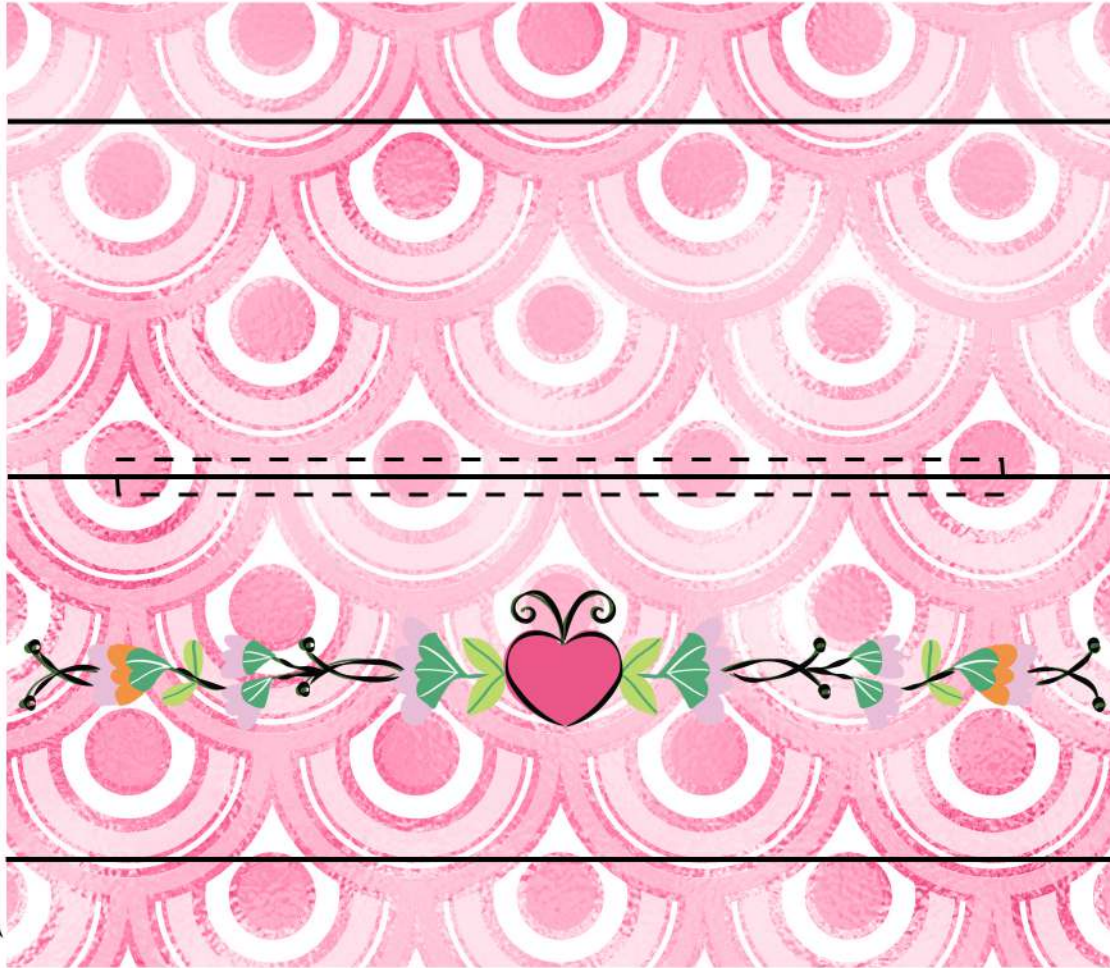

# Short Card

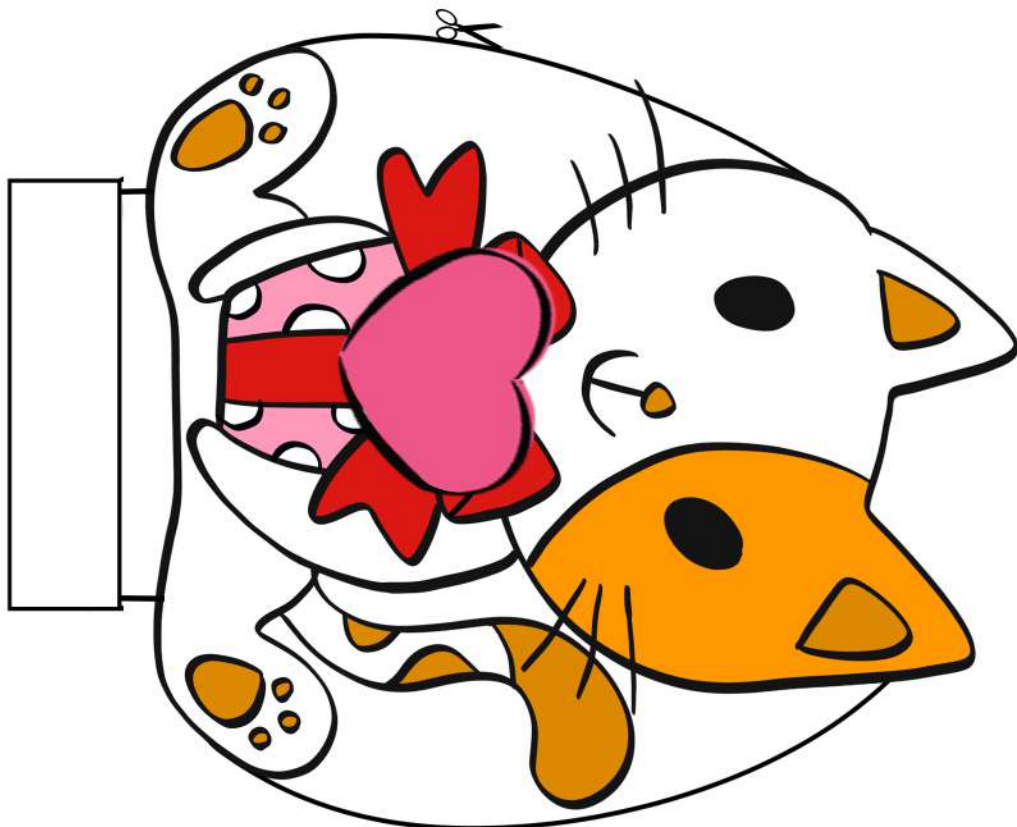

Fold back along solid lines.

Cut out slot along dotted lines.

Apply glue to this flap first.

Fold forward along solid line.

Cut out  
this  
circle  
and glue  
it to the  
front  
of the  
card.

Cut out this greeting  
and glue it to the inside  
of the card.
